

CHAMBER QUARTERLY FORUMS

These quarterly forums are designed to give our members a better understanding of key topics affecting our business community. Each quarter we will discuss topics such as entrepreneurship, existing industry workforce, talent, regionalism, legislative affairs, economy and business environment. Our speakers include local and state elected officials, state government executives, business owners and members of the Chamber's Business Advocacy Committee. Average attendance is 100-150 regional business executives.
